

Driver's License Information

Additional information is being requested again this tax filing season in an effort to combat stolen-identity tax fraud. The state of Massachusetts, along with many other states, is highly suggesting that driver's license information be e-filed with your state tax return. This information will not print on your state return, but will be sent electronically with your state return to verify your identity. So you can provide me with a copy of your driver's license, or you can call my office with the information, or provide the following information to me when I receive your other tax documents:

Name: _____

Driver's License ID Number: _____

Date of Issuance: _____

Expiration Date: _____

State of Issuance: _____

Spouse Name: _____

Driver's License ID Number: _____

Date of Issuance: _____

Expiration Date: _____

State of Issuance: _____
